- Green light comes on for 3 seconds when keyboard is first turned on.
- Red light comes on when charging and off when fully charged.
- Red light will flash when battery is low.  
Press "FN+ " and the green light will blink to show battery power.

Green Light Blinking Times	Remaining Battery
1	25%
2	50%
3	75%
4	100%

### ② Bluetooth Indicator

- Press "FN+ " and the blue light will flash to confirm pairing mode has been enabled.
- Green light will turn on to indicate Caps Lock is enabled.

### ③ Backlit On/Off Key

1. Press the first time to turn on backlight.  
Press the second time to increase brightness.  
Press the third time to turn off backlight.
2. Press  +  /  to change the backlight colors. (7 colors available)
3. Backlight will automatically turn off when battery is less than 20%.
4. The backlight won't work unless the keyboard is paired with your tablet.

### ④ Micro Charging Port: Used for charging the keyboard.

## Turning Keyboard ON and OFF

1. To turn on, press  for 1.5 seconds.
2. To turn off, press  for 3 seconds.

## Pairing with Your Surface Pro 3 or 4

1. Press  for 1.5 seconds to turn on the keyboard. The green light will come on for 3 seconds.
2. Press "FN+ " to enter pairing mode. The blue Bluetooth indicator light will begin to blink when pairing mode is activated.
3. On your device, go to "Settings" and activate the Bluetooth function to search for the keyboard.
4. The keyboard ID "1byone BS009" should be available on your device for pairing.
5. Select "1byone BS009" to start the pairing process. The Bluetooth indicator light will turn off once pairing is complete.

## Special Note

1. Please fully charge the keyboard before first use.
2. The keyboard can pair with only one device at a time.
3. After pairing for the first time, the keyboard will automatically connect to the phone or tablet in the future
4. In case of a connection failure, delete the pairing record from your device and try connecting the keyboard again.

## Power Saving Mode

The keyboard will enter sleep mode after 30 minutes of inactivity. To awaken, press any key and wait 3 seconds.

## How to Charge

1. Connect the USB end of the included charging cable into a USB port/adaptor/hub and the micro-USB end into the keyboard.
2. The Power Indicator will turn red when charging. Generally, the keyboard will be fully charged in 4 hours.

## Caution

It is recommended you turn off the keyboard to conserve battery life if you will not use the keyboard for an extended period of time.

## Troubleshooting

If you are unable to connect the keyboard to your device, please try the following:

1. Start with a full charge on both devices to ensure the connection process won't be interrupted by a low battery.
2. Confirm your device's Bluetooth is on.
3. Make sure that the keyboard is within the effective operation range of 33 feet (10 meters).

## Safety Instructions

1. Keep the keyboard away from sharp objects to avoid potential damage.
2. Do not place heavy objects on the keyboard.
3. Do not stretch, twist, or apply strong force to the keyboard.
4. Clean the keyboard by gently wiping it with a moist cotton cloth.
5. Make sure the keyboard is turned off before cleaning. Do not use liquid cleanser.
6. Do not spill coffee, tea, or other liquids on the keyboard.
